

## A simple way to remove pipework blockages

SLUDGEZAP 1 harnesses the power of friendly bacteria to **cost-effectively break down and digest organic waste** in pipework and soil stacks and **improve the efficiency of septic tanks**.

SLUDGEZAP 1 **replaces costly, traditional removal methods** such as rodding and pipe replacement, and **removes the need for toxic chemicals**, which pose potential health risks.

It is a **safer, simpler and eco-friendly** way to clear blockages.
